

MUTHYALA LALITH KRISHNA

Repalle, Bapatla (Dt.), A.P. | +91 9948766058 | muthyalalithkrishna@gmail.com

PROFESSIONAL SUMMARY

A versatile and observant professional with a solid background in managing projects and turning data into practical results. I enjoy solving everyday technical challenges and finding ways to make processes run more smoothly. Whether working independently or as part of a team, I focus on staying adaptable and applying a clear, practical approach to help our group meet its goals.

WORK EXPERIENCE

BE Sevro Systems | Guntur, A.P.

Assistant System Engineer

Nov 2023 – Present

- Assisted in installing, testing, and maintaining servo motors and automation systems.
- Troubleshoot control circuits and Programmable Logic Controllers (PLCs) to resolve technical issues and reduce equipment downtime.
- Collaborated with the engineering team on routine system diagnostics, compliance checks, and setup.

SKILLS

Automation & Hardware: Servo Systems, Programmable Logic Controllers (PLCs), PCB Design, Circuit Analysis.

Core Electronics: Embedded Systems, Digital & Analog Communication, Artificial Intelligence (AI) & Machine Learning (ML) Basics.

Additional Skills (Software): Python, Java, SQL (MySQL), SAS Programming, HTML/CSS.

Languages: English, Telugu, Hindi, Tamil.

PROJECT EXPERIENCE

Face Recognition-based Attendance System

Duration: 6 Months

- Engineered an automated attendance tracking solution utilizing Haar-cascade classifier and OpenCV.
- Managed data processing through a custom Graphical User Interface (GUI) and Excel integration, successfully increasing tracking efficiency by 30%.

GSM-based Agricultural Motor Control

Duration: 2 Months

- Designed an automated irrigation system to monitor environmental variables like soil moisture and climatic conditions.
- Optimized resource allocation, reducing water usage by 20% via sensor-driven motor operation.

Automatic Bike Ignition with Alcohol Detection (Smart Helmet)

Duration: 2 Months

- Developed a proactive safety mechanism to prevent vehicle ignition upon alcohol detection.
- Implemented real-time alert protocols for helmet usage, significantly enhancing overall rider safety and compliance.

EDUCATION

Bachelor of Technology (B.Tech) - Electronics and Communication Engineering

Vignan University, Guntur

AUG 2020 - JUL 2023

CGPA: 8.33

Relevant coursework in Digital System Design, Digital Signal Processing, Embedded Systems, Very Large-Scale Integration (VLSI), and Internet of Things (IoT).

Diploma in Electronics and Communication Engineering

AANM & VVRSR Polytechnic, Gudlavalleru

JUN 2017 - JUL 2020

Percentage: 89.8%

Relevant coursework in Circuit Analysis, and Communication Systems.

CERTIFICATIONS

- Python & Java Programming (NPTEL)
- CCNP Routing and Switching (Cisco)
- Embedded Systems Fundamentals (APSSDC)
